DESIGNING WITH SPRAY PAINT

belton guarantees more painting fun

Be it for hobbies, decorating or renovations – in many cases spray painting is the best alternative for making things more colourful quickly and easily. This is the reason why more and more users are moving away from paintbrushes, rollers or other complicated procedures and are opting for the practical spray paint can. belton, the brand for decorative, creative spray painting in the hobby and pastime field, is

therefore always the first choice when revamping and painting complex or delicate forms, patterns or objects. belton has a broad range of colour shades and colour effects, and a comprehensive range of basecoats and special paints for a wide variety of surfaces and applications.

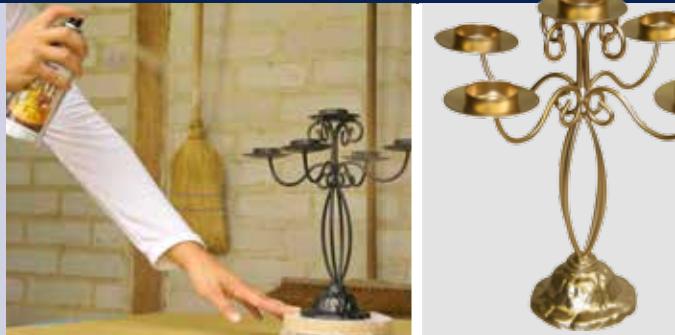

Infinitely creative

Let your imagination run wild. With belton spray paint and clever decoration and creative ideas, everyday objects can be transformed in no time at all. Always new, always different.

Shining like new

Use the belton primers to prepare the object for all further processing and painting steps, allowing old objects to regain their former splendour.

Designing fun

Never lacking in ideas? Then we have something in common, because belton is always coming up with new innovative surprises. Regardless of how fast living or furnishing trends change, belton keeps up with the pace.

Where a paintbrush cannot go

belton spray paint allows you to achieve excellent painting results even on difficult materials and surfaces, because spray paint is distributed evenly and finely wherever the colour needs to go.

Simply perfect spray painting:

- Spray paints are handy and flexible
- Safe and clean to use
- High covering power, fast drying
- Ideal for indoors and outdoors
- Wherever you cannot use a paintbrush

TIPS AND TRICKS

Some helpful information

You achieve perfect painting results if you use the right spraying technique.

Proceed as follows:

1

Surfaces need to be clean, dry and free of grease. Depending on the material, remove all rust, apply filler, sand and clean. Cover all surfaces that are not to be painted with paper and tape, then prime the surfaces.

2

The ideal work temperature is between 20 °C and 25 °C. Avoid direct sunlight and wind.

3

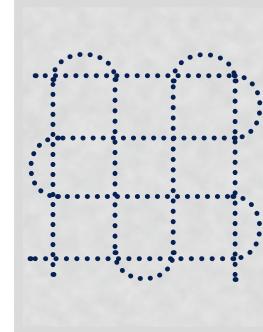

Shake the spray paint can thoroughly for at least 2 minutes, so that the colour pigments in the paint are mixed evenly.

4

Always hold the spray paint can vertically when spray painting. Test spray first to check the colour shade. The correct spray distance is 25 cm. Always start spraying away from the object.

5

Apply several thin layers in cross coats, first vertically then horizontally. Wait 2-3 minutes between coats.

6

Ensure adequate ventilation to avoid spray mist.

THE FOUNDATIONS FOR OPTIMUM SPRAY RESULTS

ABOUT BELTON BASIC

It's all about the right primer

belton Basic comprises a wide range of primers, adhesion agents and special products for optimised pre-treatment of surfaces and all kinds of objects that are to be painted. The basic products ensure that the surface is prepared carefully for subsequent painting with belton colour, effect and special paints. The technically mature products are specifically tailored to meet the needs of DIY and hobby applications.

- Special primers for all materials
- Ensures perfect adhesion of top coats
- Specifically matched to the belton range
- Other special and cleaning products

belton basic – The first step to a perfect finish

- Cleaning
- Priming
- Fillers
- Protective paints

Universal primer

Universal primer spray with excellent adhesion properties that creates a closed, smooth surface. The ideal undercoat for the subsequent top coat, be it on wood, stone, plastic or metal.

323 501
grey
(400 ml)

326 075
white
(400 ml)

An all-rounder! One product for everything!

Anti-corrosion primer

Highly effective special primer for bare metal and aluminium surfaces. With outstanding adhesion and filling properties, this product protects, levels and prepares the surface for painting all-in-one. Can be used indoors and outdoors.

323 504
beige
(400 ml)

Highly effective rust protection

Wood primer

Transparent, fast-drying special paint for priming untreated wood and all kinds of wooden objects. It creates a closed, smooth surface as the perfect preparation for subsequent painting of the wood.

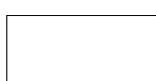

323 503
transparent
(400 ml)

For perfect adhesion on wood

Plastics primer

Special adhesion agents for pre-treatment of paintable hard plastics or other conventional plastic parts. Thanks to the light pigments, it is clear where the strong adhesive spray has already been applied during the process.

323 505 326 076
transparent (150 ml)
(400 ml)

For perfect adhesion on plastic

Polystyrene primer

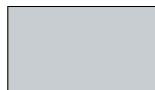

The highly-adhesive pore-filling special primer creates closed, smooth surfaces on polystyrene objects – as the perfect preparation for subsequent painting. The product can be painted over with all belton spray paints.

Diamond effect

This decorative spray brings a touch of "glamour" into your home. Brilliant-sparkling diamond effect for the decorative design and revamping of various objects. The diamond effect is highly effective on dark surfaces. Can be used indoors and outdoors. Always coat with belton clearcoat for all effects.

Glitter
and Glamour

Neon effect

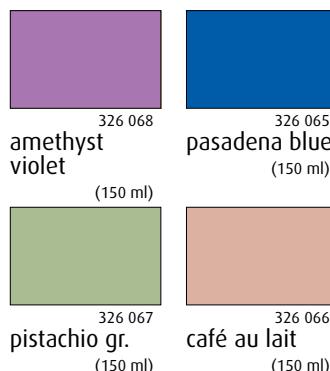

Fluorescent special pigments in this bright effect paint give the final results a special kick. It can be used to lend various objects a bright neon effect. Can be used indoors and outdoors. Apply an undercoat of white for the best results. Always coat with belton clearcoat for all effects.

Bright
colours!

Pearl effect

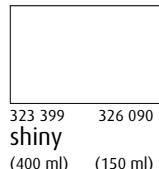

Gives decorative and household objects a completely new look. This silky shine lends everyday objects a touch of luxury. Can be used indoors and outdoors. Recommendation: Coat with belton clearcoat.

Satin
shine

Clearcoat for all effects

The special clear coat seals surfaces and objects that have been painted with effect sprays such as belton neon, pearl, diamond, granite effect etc. The easy-to-process belton clearcoat ensures durable and secure protection for the belton effect paint coat.

Ideal long-term
protection

Metal protection paint 2in1

Anti-corrosion and top coat in one product! This high effective paint can be applied directly onto rust. Simply remove any loose rust and then seal permanently and securely with the highly adhesive metal protection paint 2in1. Anti-corrosion and top coat in one.

Radiator paint

Yellowing and temperature-resistant spray paint up to +100° C to paint or revamp the colour of radiators, towels warmers, warm water pipes, thermal devices etc. Ventilate the rooms well after spray painting.

Heat-resistant paint

Heat-resistant up to 650° C , this product is suitable for painting parts that are subject to high temperatures, such as stovepipes, fire bowls or chimneys. The heat-resistant special spray can be used indoors and outdoors. Also suitable for cars, two-wheelers e.g. on the exhaust system.

Grill spray paint

For optical and functional upgrading of grills that are exposed to extreme heat and corrosion. The special spray paint has a high surface hardness and is heat-resistant up to 650°C. The paint only fully hardens at 250°C. Heat up slowly.

323 460
black matt
(400 ml)

The grill season
can start

Enamel spray paint

To repair scratches, small spot damage or upgrade objects made of enamel, such as bowls, buckets or other items. For external repairs to sinks, shower or bath tubs. Paint will not remain permanently on large surfaces.

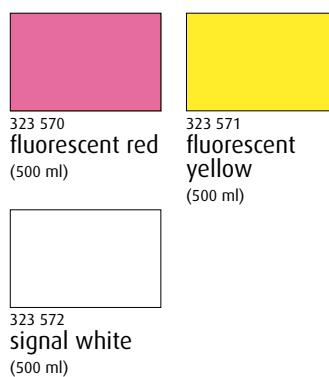

323 465
white
(400 ml)

Old treasures
as good as new

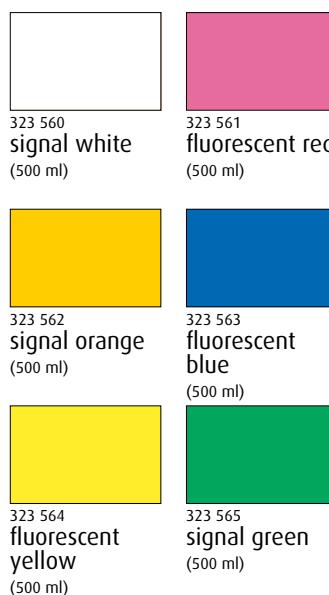

Road and line marker

Fast-drying special paint for precise linear markings on all kinds of surfaces, such as asphalt, concrete, earth, grass sand, snow. Ideal for marking parking areas, storage rooms and for private purposes. For all absorbent and non-absorbent surfaces and also vertical surfaces. Clean overhead working with 360° function.

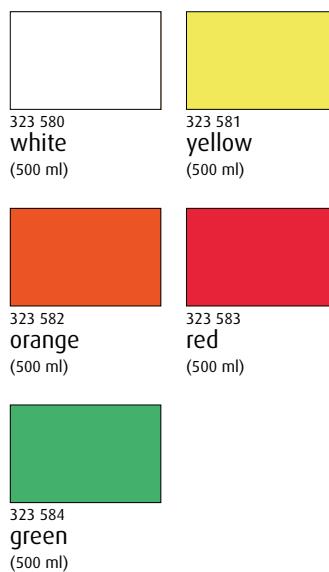

Construction and forestry marker

Ideal for writing and marking in the fields of construction, surveying, and the timber and forestry sector. The lancet allows highly precise and variable spraying, even overhead, thanks to the 360° spray head. Ideal for spraying vertical surfaces because the paint dries very quickly without dripping. For all absorbent and non-absorbent surfaces.

Temporary marker

For temporary markings that will last for 2-8 weeks depending on the level of wear and the weather. Ideal for sports, events and hobbies. The fast drying special paint with 180° overhead function can be used indoors or outdoors and is suitable for a variety of surfaces.

PIONEERING IN TERMS OF ECOLOGY AND QUALITY

ABOUT BELTON FREE

The new water paint generation 100% quality – 100% ecology

belton free is the technological revolution in the spray paint can*: With a brilliant appearance for perfect results and almost solvent free, the fully new acrylic water paint is outstanding in every respect. belton free is 95% water-based and odour-free. This practical 250 ml can proves its efficiency with a high yield.

Suitable for many materials:

- Wood
- Plastics
- Cardboard / paper
- Metal / aluminium
- Polystyrene

* A joint development by
BASF SE & Peter Kwasny GmbH

belton free is THE innovation in the spray paint can

For indoor and outdoor use, because it is weather-resistant and light-fast

Fast drying
45 min. (dust dry)

Excellent CO₂ footprint

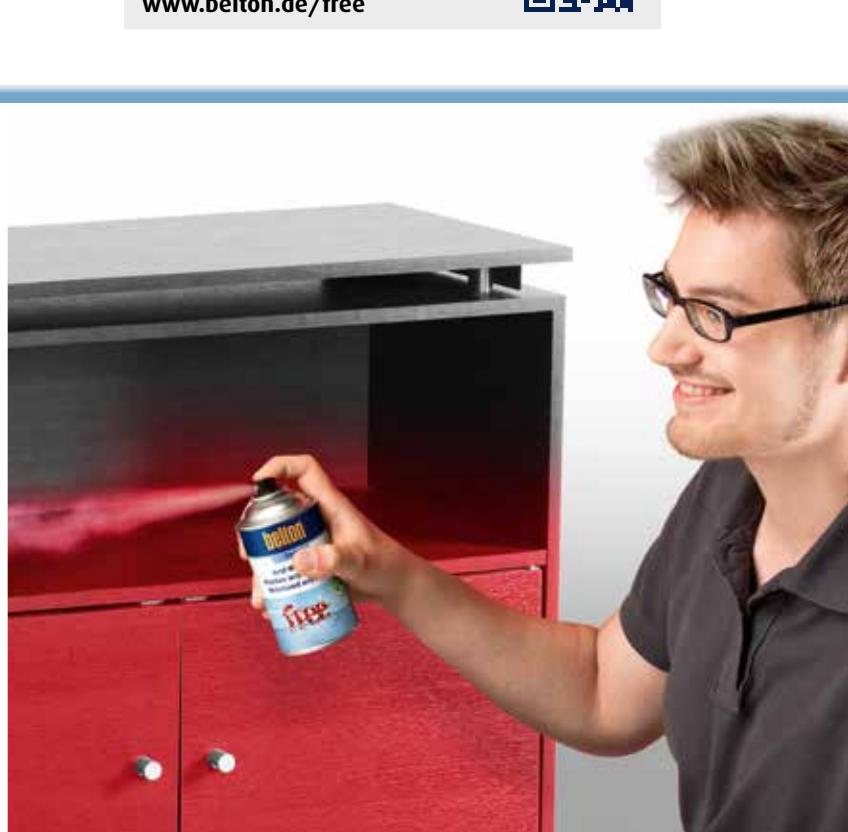

Significantly reduced volatile components (VOC value)

Suitable for children's toys in compliance with DIN EN 71-3
(ILF test report 130213 dated 11.09.2013)

Please note our special processing information for acrylic water paints at www.belton.de/free

robust

IT KEEPS WHAT IT PROMISES – PERMANENT BEAUTIFUL PAINTWORK

ABOUT BELTON ROBUST

The classic product in artificial resin quality

As reliable all-rounders, the belton robust sprays stand out thanks to their classic artificial resin paint base. Highly scratch resistant, weatherproof and solid, these products are highly suitable for outdoor applications and guarantee longstanding, clean and high-covering quality.

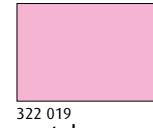

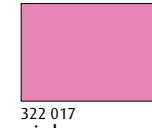

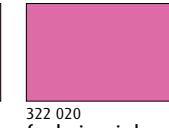

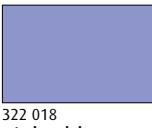

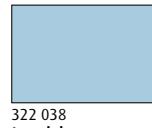

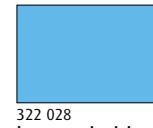

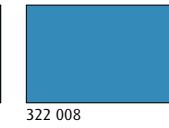

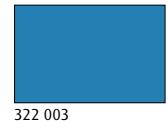

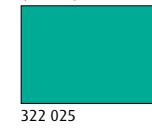

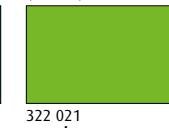

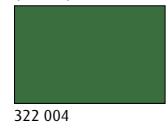

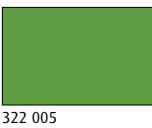

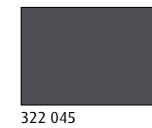

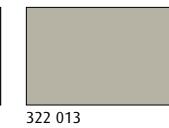

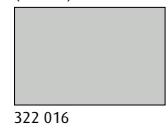

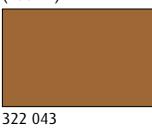

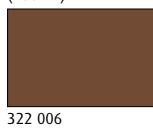

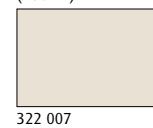

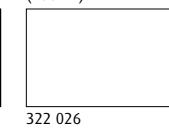

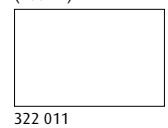

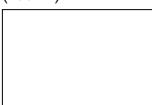

belton robust is universal and can be used on e.g. wood, metal, glass, stone or various plastics. The users have the choice of a matt, satin gloss or full gloss recipe.

THIS IS HOW FANTASTIC COLOUR SCHEMES ARE CREATED

EVERY PIECE IS UNIQUE

Particularly impressive
on curved objects!

belton dream Flip-Flop effect

It is really incredible that these kinds of chameleon effects can come out of a spray paint can. The secret is the Flip-Flop or interference paint. Depending on the angle at which the object is looked at and the prevailing light conditions, new colour effects with metallic shiny nuances are created. Regardless of whether your work is artistic and decorative or if you simply want to upgrade an everyday object, – with belton dream Flip-Flop effects you can always create individual design objects.

Exciting colour effects in just three simple steps

apply basecoat

leave to dry for 20 min.

apply Flip-Flop effect

leave to dry for 20 min.

apply effect clearcoat

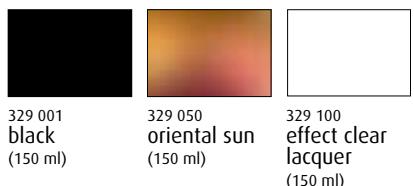

ready! Fully dry
in 24 hours

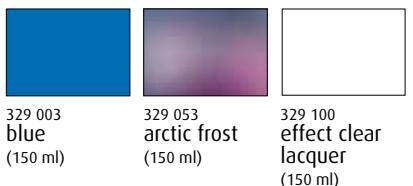

PRODUCT RANGE

You have the choice with belton dream

belton dream basecoat + belton dream Flip-Flop-effect paint + belton dream effect clearcoat = Colour result

belton dream basecoat + belton dream Flip-Flop-effect paint + belton dream effect clearcoat = Colour result

LIQUID CHROME EFFECT

Exciting chrome effects in just two simple steps

belton dream liquid chrome

This spray paint with a liquid chrome look is stylish and upmarket owing to the high percentage of metal particles. belton dream liquid chrome is wear-resistant and therefore retains its shiny appearance for a long time – whatever you want to design or lend a high-quality metal look to.

apply
base coat black

leave to dry for 20 min.

apply
liquid
chrome effect

ready! Fully dry
in 24 hours

Liquid chrome cannot be
coated with a clear coat

belton dream basecoat + belton dream liquid chrome effect paint = Colour result

Silver-chrome for
a real metal look.
And what do you
want to make more
beautiful?

ACCESSORIES

Kwasny spray can handle

Art.-No.: 746 200 loose
Art.-No.: 746 202 blistered

Spray can handle for simple standard handling when painting with belton or other spray paint products.

Benefits:

- Simple, labour-saving handling
- Secure painting results
- No impact or interference of the spray jet
- Handling like a painting gun

Kwasny spray head set

Art.-No.: 746 203

Spray head set with various spray heads for flexible use with belton spray paint cans or other Kwasny spray paints.

Benefits:

- 4 different spray heads for small, medium and larger surfaces
- For improved painting results
- Spray jet is matched to the respective painted object or the painting requirements
- Spread heads can be used more than once
- Content: 6 spray heads

OUR CUSTOMER PROMISE

We more than meet the high standards of our customers and trade partners with our excellent process and know-how management, starting from the research & development, through production with an extraordinary production depth, up to and including mature logistics solutions.

By virtue of the fact that the entire process chain including the production of components, such as paint and plastic parts, is all in our own hands, we can ensure our high certified quality standards at all times.

Also, the integrated and networked approach and working methods allow us to react flexibly to the various customer requirements.

*Experience spray paint first hand:
The new Kwasny Technical Centre
is an idea centre for spray paints
with specifically equipped painting,
demonstration and seminar rooms.*

OUR BRANDS ARE AT HOME IN MANY INDUSTRIES

and simple car
paint repairs

THE WORLD OF
SPRAYPAINT

SPRAY PAINTS FROM OUR OWN PRODUCTION

„Made in Germany“

From a revolutionary idea to one of the leading manufacturers of spray paint cans in Europe. KWASNY is the company behind the successful brands in the "spray painting" field.

And this is no coincidence. We wrote pioneering history in the European market for spray paint cans and we are continuing to do so every day, as we create innovative products and solutions for your customers in the automotive, industrial and decorative fields across the world.

With just under 400 employees across the world, the Peter Kwasny group consistently and successfully follows its path of quality and technology leadership in the field of professional spray paint systems.

Welcome to Peter Kwasny GmbH!
